

Track data trends - anywhere, anytime

Instant overview

With the trendlog.io platform you can easily track and analyze data. The user-friendly and customizable interface gives you a complete overview of your business.

Complete Control

The collected data is send via an encrypted connection to the trendlog.io cloud. You can access the data from your PC, smartphone, tablet, or display it on an info screen.

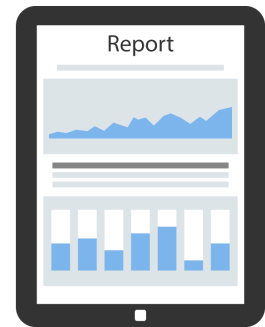

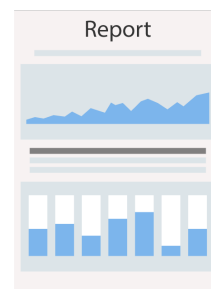

Flexible web app

With the trendlog.io web app you get a complete view of the collected data. The main interface is the Trendboard, which is completely customizable.

Automated Reports

Get automated reports every day, week, month etc. This feature can be customized to show the exact data overviews that you want.

Easy integration

Our Data Forwarder can be easily integrated with various protocols and you can have access to your data straightaway.

Customized solution

Our team works hard to continuously develop the trendlog.io platform and to offer solutions that fit your current situation.
